.....

Caremark[®] is your PBM

We manage your State Health Plan prescription benefits and help keep your medication costs low.

Affordable medications when and where you need them

As a part of the Caremark family, you have access to a wide range of cost-effective medications and network pharmacy choices, including home delivery, for you and your family.

More savings and convenience

We provide support and guidance so you get the most value from your plan.

Find a network pharmacy. Using a network pharmacy keeps you from overpaying. You can pick up your medication, but many pharmacies also offer home delivery.

Fill in 90-day supplies. Have refills delivered to your door for medications you take regularly in 90-day supplies from Caremark Mail Service Pharmacy. There's no delivery fee, and you'll probably save money, too.

Stay on track and look for savings using our digital tools. Request refills, get email and text alerts about your prescriptions, and check medication costs—all on your own time.
